

# Secure Pure Cloud Faxing for Email and Sharp MFPs

**SHARP**

To: 7146951010@eGoldFax.com

## Secure faxing via MFPs and Encrypted Email

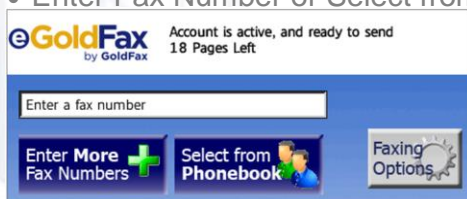

- No MFP fax kits
- No fax phone lines

- ✓ **“Pure Cloud” faxing** – no fax hardware/software
- ✓ **Secure, encrypted sending/receiving**
- ✓ **Unlimited Sharp MFPs**
- ✓ **Unlimited Email Users**
- ✓ **No fax busy, never miss an inbound fax**
- ✓ **Keep your fax numbers** – port to eGoldFax
- ✓ **Obtain additional fax numbers**
- ✓ **No up-front costs or long-term contracts**

**eGoldFax Pure Cloud Faxing™** is a cloud service for Sharp® OSA 4x and Scan-to-Email multi-function printers (MFPs). It fax enables Sharp MFPs without the need for MFP fax hardware or an MFP fax line. eGoldFax also lets you send and receive faxes through your email. Ideal for small, medium, and enterprise organizations.

### Sharp OSA 4x Cloud MFP TOUCH PANEL

- Enter Fax Number or Select from Phonebook

### Advantages – Up and running in minutes

- All you need is Internet access and email
- No software to install
- No MFP fax hardware or fax telephone lines needed

### eGoldFax – How Does It Work?

- To fax paper documents from Sharp MFPs simply Scan-to-Email and enter “FaxNumber@eGoldFax.com”
- **Sharp OSA 4.x Cloud Capable MFPs** - just enter fax number or select from Phonebook
- To fax digital documents send a secure email to “FaxNumber@egoldfax.com”. Add attachments.
- Received faxes are delivered by secure email to one or multiple email addresses
- Optionally auto print received faxes on Sharp MFPs
- Secure Faxing - Sent and received email is processed via secure, encrypted email using TLS (Transport Layer Security). Sharp OSA 4x Cloud Capable MFPs can be configured to use SSL (secure sockets layer) data encryption.
- Keep your existing fax numbers by porting them to eGoldFax
- New toll free fax numbers included at no extra charge (quantity dependent on plan)
- Additional local area code and toll-free fax numbers available if desired
- Save \$40/month or more per Analog Plain Old Telephone System (POTS) fax line eliminated
- No long distance fees (faxes to USA, Canada)
- No fax busy, never miss an inbound fax

## Easy Faxing with eGoldFax

### Outbound Faxing

eGoldFax enables unlimited users to fax documents directly from your MFPs, computers or smart devices.

### Fax Paper Documents from Sharp MFPs

Sharp OSA 4x and later Cloud Capable MFPs:

- Select eGoldFax from the MFP touch panel
- Enter a fax number or select contacts from eGoldFax Cloud Phonebooks
- Enter your email address to receive a notification of fax status (optional)
- Press Scan and Send Fax

All other Sharp MFPs:

- Select Scan-to-Email. In the "TO:" field enter: "FaxNumber@eGoldFax.com"  
For example, to fax to 714-695-1010 enter: 7146951010@eGoldFax.com
- Scan the document
- Select contacts from MFP's Email Address Book. Use email format above and include "FAX" in display name of saved contacts for easy searching.
- Optionally, enter message and subject as well as specify the e-mail sender

### Fax Digital Documents from Computers and Smart Phones

- Address a standard email message TO: "FaxNumber@eGoldFax.com". The subject and message text will be placed on fax cover sheet including your email signature and logo graphics.
- Attach documents to be faxed (Word, Excel, PDF, TIFF, JPG or BMP) to the email message
- Click "Send." You'll receive an email of the fax status notification.

	Cc,...	
	Subject:	Purchase Order
	Attached:	 PurchaseOrder.xlsx (676 KB);  Terms and Conditions.pdf (15 KB)

## Inbound Faxes

- Keep existing fax numbers by porting to eGoldFax. Obtain additional fax numbers (local and toll free).
- eGoldFax routes each inbound fax to your designated email destination as a PDF attachment.
- Associate your inbound fax numbers to one or more email addresses. Route to individuals, departments, workflows, or to MFP devices for auto-print.

## Secure, Encrypted Fax Delivery

Some of the most confidential documents are sent and received via fax including financial data, contracts, and patient information. eGoldFax supports email encryption in transit using Transport Layer Security (TLS). Email services and servers supporting TLS include: Gmail, Yahoo email, AOL email, Exchange online, Office 365, and Microsoft Exchange and IBM Notes/Domino servers with TLS enabled. eGoldFax telephony data center has achieved PCI Data Security Standard (PCI-DSS) Level 1 Certification in USA and Canada. Sharp OSA 4x Cloud MFPs can be configured to use SSL (secure sockets layer) data encryption when communicating with the eGoldFax secure Web pages (HTTPS).

**my.eGoldFax.com Portal**  <https://my.egoldfax.com>

From your eGoldFax portal you can:

- Manage your account, user list, and Sharp MFPs
- View fax activity and manage inbound fax routing
- Request additional fax numbers and more

## eGoldFax Pure Cloud vs. Fax Server Solution

Traditional fax server solutions may require on-site server hardware/software. Connection through the on-site telephone system is typically required for direct inward dial (DID) fax routing, usually requiring support from your telephone system integrator. With eGoldFax, no need for fax hardware, software, or the complexities of telephone system integration.

### Requirements

- Sharp OSA 4x Cloud Capable MFPs with Application Communication Module MX-AMX2; or any MFP with Scan-to-Email feature
- Email service and internet access. TLS enabled Email Server or TLS supported service.
