Sharp Unveils New High-Speed Color Office Series Featuring Enhanced Productivity and Performance

New high-speed color document systems leverage Sharp's latest technology to help businesses maximize productivity, workflow efficiency and data security

Sharp is pleased to announce two new high-speed color document systems designed to meet the demands of today's fast-paced departmental environments. Powered by the latest Sharp controller technology, the new BP-80C70 and BP-80C80 deliver output speeds up to 70 and 80 ppm and share common features and security with our BP Color Advanced Series. These models also offer several new finishing options that deliver enhanced performance and reliability.

The BP-80C70 / BP-80C80 are successors to the MX-7081 / MX-8081 and include significant enhancements, such as printing at full engine speed even with 220 gsm heavy media. Image processing with AI technology helps optimize resolution, compression and document alignment, correcting skewed pages and detecting original sizes on the fly. Users can produce three-panel brochures on banner paper with the optional long paper feeding tray.

The BP High-Speed Color Office Series leverages the latest technology from Sharp to help users get their work done with superior results.

Key Enhancements	MX-7081 / MX-8081	BP-80C70 / BP-80C80
Engine speed with heavy paper	33 ppm (BW/Color)	Full engine speed up to 220 gsm
Envelope Feeding	Monarch	Monarch / COM9 / COM10
DSPF Scan Speed	120 / 240 ipm (Simplex / Duplex)	150 / 300 ipm (Simplex / Duplex)
Microsoft Entra ID Authentication	Not Available	Supported
Microsoft Modern Print Platform	Not Available	Supported
Fiery Print Server	FS400 Software Platform	FS700 Software Platform
Simultaneous Sharp / Fiery Driver Support	Not Available	Supported
GBC Finishing	GBC SmartPunch Pro	GBC SmartPunch Plus

Leading security technology is built into the new BP High-Speed Color Office Series to help organizations protect their data. Strong features, such as **system integrity check** at startup, **real-time intrusion detection**, as well as **optional anti-malware protection powered by Bitdefender®**, help businesses guard against hackers and malicious intruders. Cloud-based device management with AI enhanced **Synappx Manage** helps dealers manage serviceability with greater efficiency.

Supplies and Accessories

Supply pricing for the new BP-80C70 and BP-80C80 remains the same as previous models, helping maintain stable and predictable pricing for these critical items. Due to lower attach rates and reduced production volumes, pricing on select finishing options and large capacity trays has increased.

Availability for Ordering

The BP-80C70 and BP-80C80 document systems are available for ordering. Retail pricing is available through the link below. Complete price lists will be distributed by your Sharp Territory Business Manager.

Collateral Material

Printed brochures are available from the Hibbert Group. Please call 609-421-4212 or go to sharpliteratureorders.com to place an order. Brochures can also be personalized or printed on demand through the [Sharp Marketing Center](#).

Item Code	Description	Your Cost
CPD-26-004	BP-80C70/80C80 Brochure	\$0.60
Download ONLY	BP-80C70/80C80 Specification Sheet	Free

Service Training

Installation videos for the BP-80C70 and BP-80C80 will be available in the Service Success Center. Additional training opportunities coming soon include:

- 3T Training
- Sharp Classroom Training Events
